

## HOUSE RULES

### Please note:

For reasons of better readability, no gender-neutral differentiations are made. Corresponding terms generally apply to all genders in the sense of equal treatment. The gender-neutral language does not imply any value judgement.

The care of patients requires the prudent observance of and compliance with these house rules. The house rules are binding for all persons who are in the clinics (patients, visitors, staff, tradespersons/craftspersons, other service providers, etc.).

### I. Admission

Admission to the clinics usually takes place on the ground floor (central admissions office) or on the first floor of the building (central patient admissions) as well as at the central emergency room in building C. In addition, direct admissions take place in the paediatric clinic, the psychiatric clinic, the obstetrics clinic as well as in the respective medical practices of the MVZ Kliniken Landkreis Heidenheim gGmbH.

Admissions are governed by the General Terms and Conditions of Contract, which are displayed in the waiting area of the central admissions office and which are also handed out by the staff of the central admissions office upon request. General Terms and Conditions of Contract regulate the essential legal relationships between the patients and the Heidenheim Clinics, which become effective upon admission for patients or accompanying persons.

### II. Stay in the clinics

#### Liability

The clinics accept no liability for items remaining in the care of the patient as well as for personal clothing items stored on the coat racks. The same applies to the loss of money and valuables which are not handed over to the care of the cashier at our administration unit (D 0.761) for free-of charge storage.

#### Conduct

1. When staying at or visiting the clinics, the greatest possible peace and quiet is to be maintained in the entire area of the clinics and the outside facilities and attention is to be paid to cleanliness and order.
2. Quiet time for patients is from 12:00 to 14:00 and from 21:00 to 6:30. During this time, increased consideration of the needs of others is a matter of course.
3. Patients are required to stay in their patient rooms during medical rounds, to carry out prescriptions, at mealtimes as well as from 21:00.
4. Smoking is not permitted in the buildings. This ban naturally includes balconies, toilets and emergency stairwells. Smoking on the premises is only permitted in the areas specially designated for this purpose.
